FAX: (860) 647-8399

March 17, 2020

Dear Parents, Guardians & Patients,

In keeping with the CDC guidelines Manchester Pediatric Associates, with the exception of our Tolland office, is suspending all well exams for 2 weeks.

Newborns must & will continue to be seen.

We have a provider designated and will contact you.

We will be answering our phones and providers will be available daily, for all well and sick child questions as usual.

If your child needs to be seen; earache, sore throat, injury, rash.....

We will have a separate designated provider seeing sick patients.

There will be providers using Telemedicine to communicate through HEALOW, our patient portal, to visually discuss questions regarding your child with you.

Please give us your email address to enable this ability when you call us.

We are rescheduling all well appointments until after April 1, 2020.

We remain committed to you and your children.

We hope this effort will help reduce the risk to all our patients, families and staff as we proactively respond to this health emergency.
